

How to Measure your Alberta RV Mattress

This type of RV Mattress is named after the Province of Alberta, for obvious reasons! An Alberta Mattress is where one, or both, of the bottom corners are cut off. It is very important to get all of the measurements correct, or the mattress will not fit properly on your frame. Follow the simple steps below.

- 1) Draw a diagram like the one to the right
- 2) Write down measurements in inches "A" through "E"
- 3) Take this diagram to your nearest Foam King. We will make your custom Alberta Mattress out of the foam you find the most comfortable.

****DOUBLE CHECK ALL MEASUREMENTS****

My Mattress Drawing and Measurements:

MEASUREMENTS:
(in inches)

A: _____

B: _____

C: _____

D: _____

E: _____
